Unit Information

Unit: Health, Safety and Welfare in Construction
Level: 3
Credit Value: 3

What you will study:

You will learn about a typical management and legislative framework within a construction project. You will learn how to explain methods for communicating issues relating to Health and Safety and gain an understanding of the importance of communication.

You will cover the legislative framework, and examples of breaches in this framework and identifying possible sanctions.

You will also learn how to describe and evaluate the process of data collection, and its importance in accident reporting, reduction and monitoring.

How you will be assessed:

1. You will need to complete a number of short answer questions.
