Unit: The Role of Play in Child Development
Level: 3
Credit Value: 6

What you will study:

You will learn about cognitive development theories, and evaluate how they have developed the understanding of the role of play. You will learn about how play is important to child development, including the use of play therapy. It will also cover the term ‘effective play’, evaluating the role of adults in this.

How you will be assessed:

1. You will complete a number of short answer questions.
2. You will write an essay.
