Unit Information

Unit: Introduction to Issues in Health and Social Care
Level: 3
Credit Value: 3

What you will study:
You will learn about the key concepts and terms relevant to models of health, as well as the main characteristics of social lifestyle factors that influence health and well-being. You will learn about the development of health care, including the inequalities in health (i.e. the Black Report) and the changes in health/healthcare during the Industrial Revolution.
You will also learn about the social factors influencing health and social care, the relationships between factors and health and well-being.

How you will be assessed:
1. You will complete a number of short answer questions.
2. You will write an essay.
